Hardware

A			M4X12 Truss Head Screw	2PCS	E			Ø5.3 65Mn Small Lock Washers	6PCS
B			M5X12 Truss Head Screw	11PCS	F			Ø6.4 Round Heat - Resistant Washers	2PCS
C			M4 Small Wing Nuts	2PCS	G			Ø5X30 A3 Pins	2PCS
D			M5 Large Wing Nuts	13PCS	H			65Mn Cotter Pins	2PCS

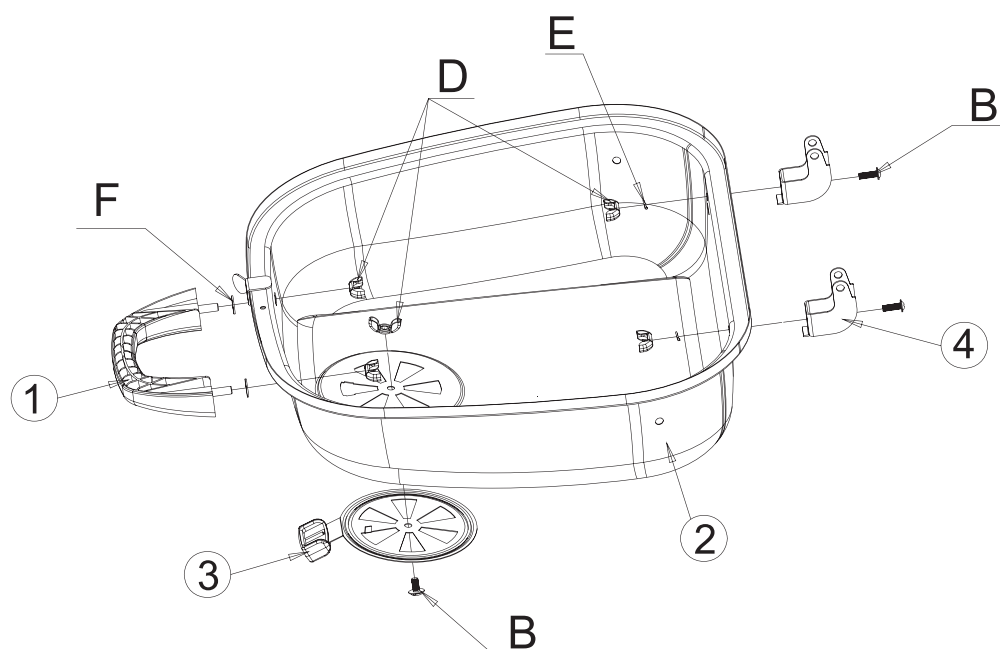

Assembly Instructions:

Step 1

Attach handle to lid (F heat resistant washer 2pcs / D Large wing nut 2pcs).

Attach air vent to lid (B Screw 1pc / D Large wing nut 1pc).

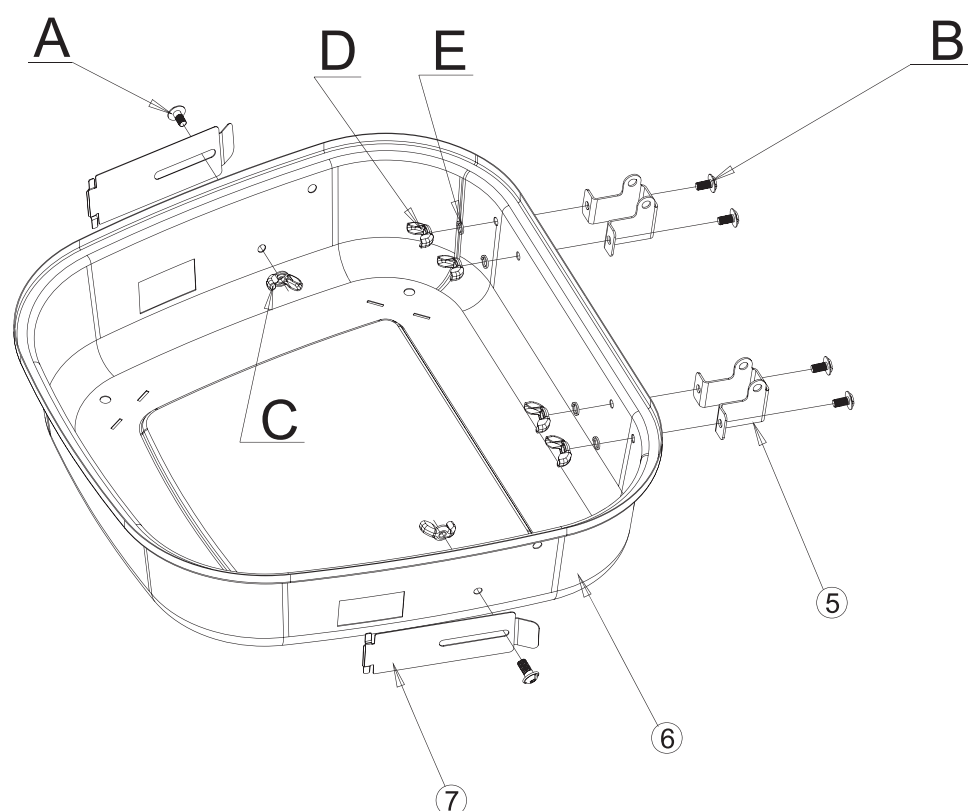

Attach top hinge to lid (B Screw 2pcs / E Small lock washer 2pcs / D Large wing nut 2pcs).

Step 2

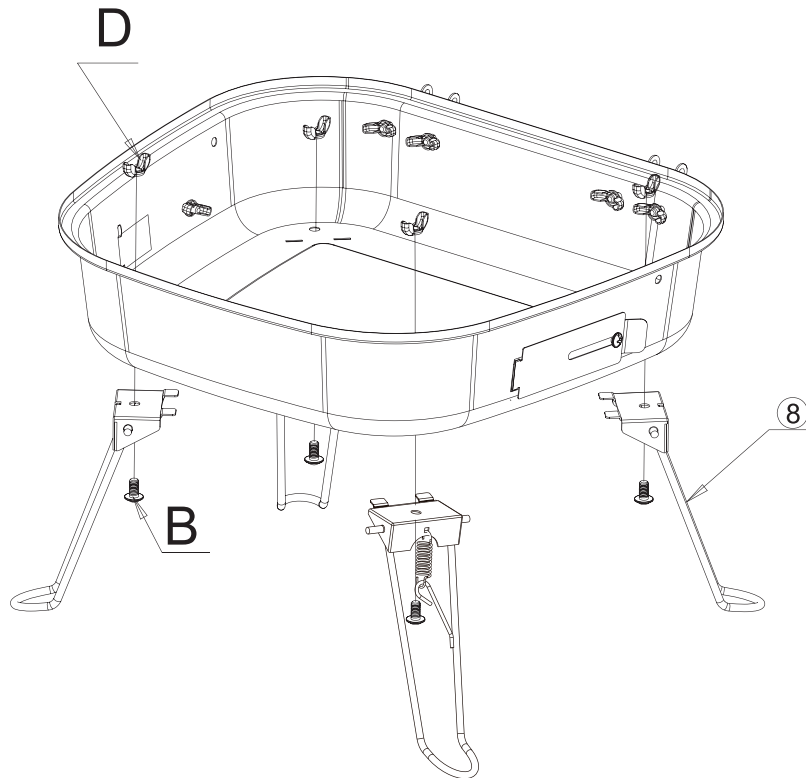

Attach bottom hinge to bottom bowl (B Screw 4pcs / E Small lock washer 4pcs / D Large wing nut 4pcs).

Attach air damper to bottom bowl (A Screw 2pcs / C Small wing nut 2pcs).

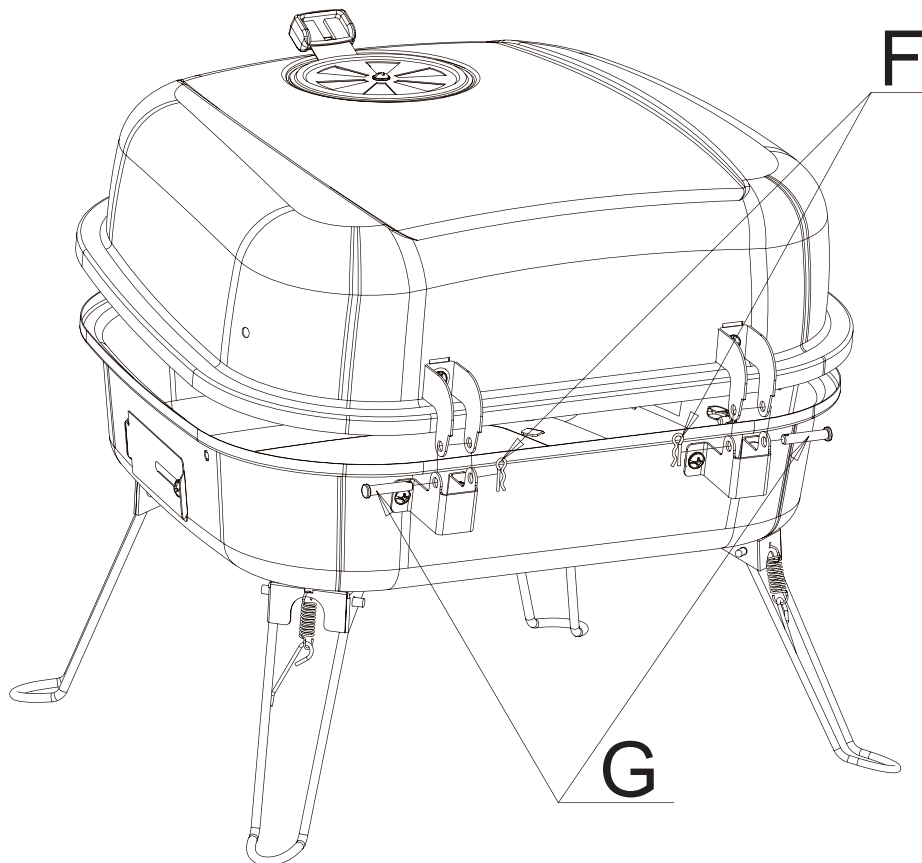

Step 3

Attach leg assembly to bottom bowl (B Screw 4pcs / D Large wing nut 4pcs).

Step 4

Insert top hinge into bottom hinge and secure them together (G Pin 2pcs / H Cotter pin 2pcs)
Note: If top hinge does not fit into bottom hinge, gently squeeze top hinge tabs together.

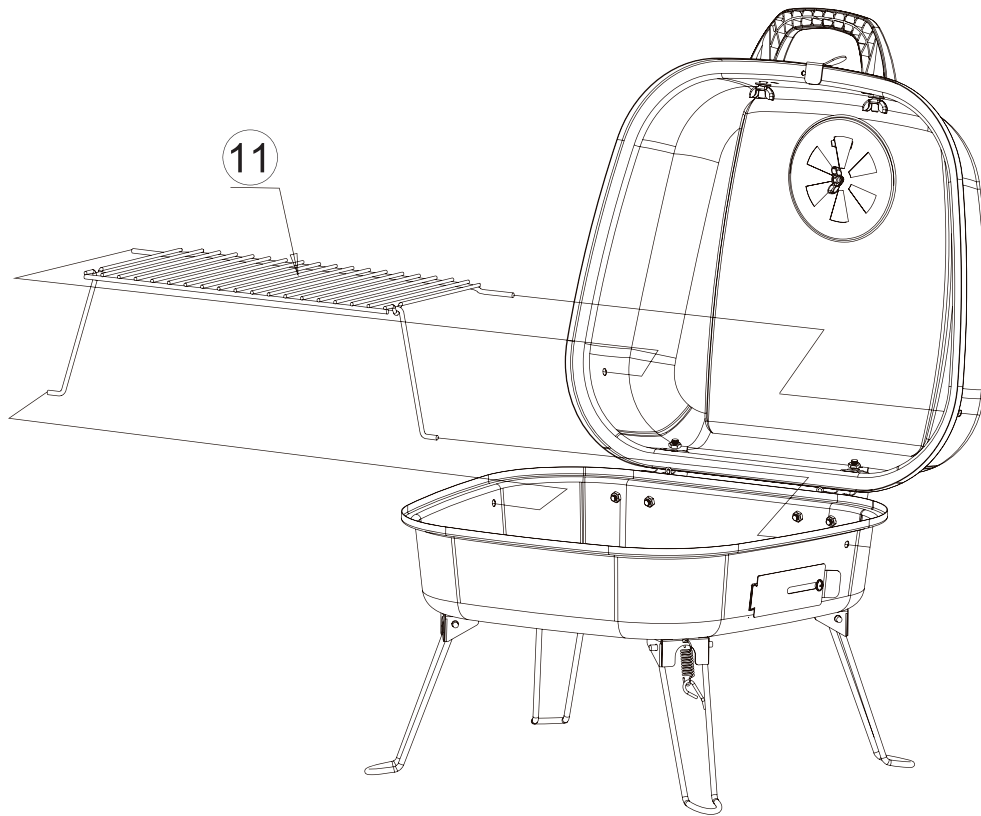

Step 5

Cut zip tie on warming rack.

Slide warming rack into holes in lid and bottom bowl.

Note: Look for corresponding holes on side of lid. Insert short wire ends into lid holes, one side at a time. Position warming rack legs into slots on bottom bowl sides. Meanwhile, the warming rack support should be under the horizontal of warming rack, or else, the warming rack will slide left or right.

Step 6

Insert charcoal grid into bottom bowl.

Insert cooking grid into bottom bowl.
